

Chapel Builders of California

What a God we serve!

We have just finished two whirlwind projects in Arroyo Grande and then Porterville...

What a blessing both of these Churches are to all of the builders that came to help them with these projects. In Arroyo Grande we remodeled two bathrooms and painted the fellowship hall at the church and did a complete remodel of the kitchen and master bath at the parsonage. In Porterville a complete new kitchen and bathroom in preparation of their old parsonage being turned into a missionary stop over spot.

Our new truck is on order and should be arriving before we leave for back east. Again what a blessing and thank you to all of you that were praying for this need and for God's provisions in this!

The past few days I've been working on our fifth wheel trailer, we live in this probably 10 months out of the year and we love it. It amazes me how little things creep into big ones! This past summer I noticed some issues that I'm just now getting to ☺. I guess it's like God describes sin, in that just a little turns into a lot. The trailer will be fine but in order to get it back into shape some things have to be removed and rebuilt. Just as God sometimes leads us to removing the old and replacing with new, we must occasionally examine ourselves and figure out what needs repairing before it can't be!

We have got a lot of work ahead of us and I'm already scheduling into next year. When we leave for back east we will be working with Randy Taylor on two of His projects and He will be coming down to Bedford Texas to work with us there. We still need help with drywall finishing, stone work and electrical work in Bedford if you can help with any of these please let us know.

Thank you so much for your prayers and support of this ministry and please pray for us as we serve and we go!

Our new truck has been ordered and should look something like this ☺
