

Chapel Builders of California

March 6th, 2018

Another fun filled couple of months for your California Builders!

We started the year in Concord Ca at Faith MBC where we worked very hard to make the old new again. We were again blessed to have Ryan Budda and Ann and Clarence Smith come all the way down from the State of Washington to help us. The Weidners were home and worked with us in Concord and followed us over to Bakersfield. Along with our regulars the Theims and Phillips.

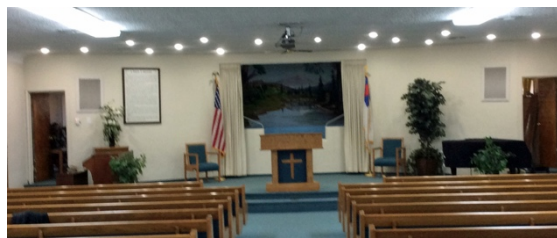

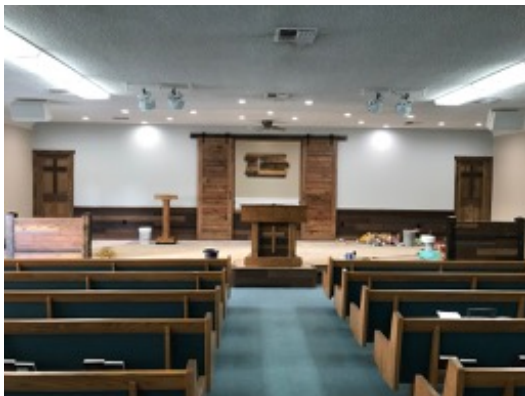

In Bakersfield we were given a new task for us to give the sanctuary stage area a reclaimed wood look with a mix of the modern via lighting etc.. We always enjoy a challenge and I think the new look might even show up on pinterest ☺

We love making our churches look good and hope and pray that the Lord will fill his house with glory and praise.

I'm going to repeat that we are busier than ever. I'm currently working with 18 churches in some way or another and we have a full schedule for 2018 and even some already scheduled for 2019.

This is a blessing for sure but also a load that we will need help with. Our mostly volunteer crew is of retirement age and only the Lord knows how we will hold up under the current load. That said we ask that if we are in your area on a project that you would consider coming out and working with us. If your church has asked for help please encourage your membership to take time out and come work with us. Thank you so much for your continued support for this ministry and for us! We covet your prayers for we know, that in them is the power of our Lord!

Pray for all of the other builders and the needs that each of them have, that the Lord will keep us healthy and continue to supply!

Above the before picture and to the left the almost finished. Still needs carpet etc..
